* Projections are based on the 2024-25 State Budget and are not directly comparable to subsequent Budget Update forecasts for aggregate employment growth. As these projections are high level, indicative and subject to change, it is recommended that the focus be on employment trends rather than the numbers in isolation. The regions used in this project are based on Statistical Area Level (SA4) regions, as defined by the Australian Bureau of Statistics. There are 19 SA4s in Queensland; the five Brisbane SA4s have been combined in this report to take into account the larger natural labour market. Queensland - Outback SA4 has been disaggregated into its SA3 components. Data is based on Place of Work.
