

## ANTICIPATING FUTURE SKILLS

# Toowoomba region

Employment in the Toowoomba region reflects its importance as a regional hub, with high employment in industries such as health care and social assistance, education and training, and retail trade. Despite declining employment in agriculture, forestry and fishing on a state level, in Toowoomba, employment in this industry is projected to grow by 4.5% by 2027-28. While a relatively small workforce, employment in public administration and safety is projected to grow at the highest rate of 17.5%.

By 2027-28, it is projected\* that there will be:

**86,785** people employed in this region

**+3,919** additional workers since 2023-24

By 2027-28, Toowoomba is projected to experience the eighth-fastest increase in employment in Queensland. It is projected to comprise 2.9% of the state's workforce.

\* Projections are based on the 2024-25 State Budget and are not directly comparable to subsequent Budget Update forecasts for aggregate employment growth. As these projections are high level, indicative and subject to change, it is recommended that the focus be on employment trends rather than the numbers in isolation. The regions used in this project are based on Statistical Area Level (SA4) regions, as defined by the Australian Bureau of Statistics. There are 19 SA4s in Queensland; the five Brisbane SA4s have been combined in this report to take into account the larger natural labour market. Queensland - Outback SA4 has been disaggregated into its SA3 components. Data is based on Place of Work.
